

January 11, 2019

AGGIES and HORNETS – Here is what you will be working on in class today:

- First you will have a chance to discuss Wednesday's homework.
 - I've let the guest teacher know that I try to get you to answer each other's questions as much as possible so that is what she will do tomorrow.
 - If you can't answer the questions and she isn't sure, we can discuss them Monday.
- After discussing the homework, you will work on the next lesson – Proportional and Nonproportional Relationships.
 - The guest teacher will walk you through the examples and practice problems.
- You will have the rest of the period to get a start on your homework.

Hope you have a great day and a great weekend! See you all Monday.

By the way – I know some of you like to switch up groups when we have a guest teacher. I've left the teacher a note asking her to make sure you stay in your regular groups. Please don't make things difficult for her by asking to switch groups.

– Also for today, no gum chewing or eating in class. The guest teacher is asked to follow the regular Redwood school rules and I don't want to make it difficult for her by changing those rules. I'm sure you can go without gum for today.

Again today, thanks for helping make this a great day for the guest teacher, for all your classmates and for yourself.
