

Hello AGGIES and HORNETS – I'm at a meeting today and you have Ms. Holman as your guest teacher. Please make sure you sit in your assigned seats. The chairs have been set up so you are faced toward the back of the room – this makes it easier for Ms. Holman to check your progress on the videos and this is the way we will be set up for testing. Also remember our discussion about behavior when I am gone. Make sure you personally do everything you can to make today feel respectful for Ms. Holman.

Today you will use Khan Academy to review Percentages. Please take out your spiral for note taking and a place to work out the practice problem. Then go to your Khan Academy account and work on the following lessons in this order:

1. Finding a percent
2. Solving percent problems
3. Percent word problems
4. Percent word problem: recycling cans
5. Percent word problem: guavas
6. Percent word problem: magic club
7. Percent word problems: penguins

If there is time remaining you can explore any Khan Academy math topic you would like to.

I'm sure class will go well, however I've left the following for the guest teacher in case there are any problems:

Student _____ **Date** _____ **Period** _____

Unfortunately, this student's disruptive behavior has reached a level where it is difficult for the guest teacher to carry out Mr. Willmarth's lesson plan with the rest of the class. Please keep the student in the office for the remainder of the period. Mr. Willmarth will have a conversation with the student and Ms. Montgomery tomorrow and together they will decide on any additional consequences.

Thank you – *M. Willmarth*
