

Hello AGGIES and HORNETS – I'm at a meeting today and you have a guest teacher. Please make sure you sit in your assigned seats. Make sure you personally do everything you can to make today feel respectful and enjoyable for the guest teacher.

- Today's lesson is on Ordered Pairs and the Coordinate Plane. There is a video of the lesson and an opportunity for you to check your understanding by solving Got It? problems. (You will need graph paper for the Got It? problems and tonight's home practice. If you do not have your own graph paper be sure you get some from the guest teacher.)
- You will need headphones or earbuds to listen to today's lesson. If you do not have earbuds or headphones be sure you have the volume muted on your device and the closed caption  turned on.
- If you finish the video and the class practice you can begin work on your home practice.
- The link to today's lesson video is in the **Today's class activities** section of the daily agenda on the website.
- Tomorrow we will discuss Monday and Tuesday's home practice. We will also discuss the Mid-Chapter Quiz. Remember, the quiz is a *formative assessment*. This means it is used to help you understand how well you understand the material we have covered. It is not graded.

I'm sure class will go well; however, I've left the following for the guest teacher in case there are any problems:

Student _____ **Date** _____ **Period** _____

Unfortunately, this student's disruptive behavior has reached a level where it is difficult for the guest teacher to carry out Mr. Willmarth's lesson plan with the rest of the class. Please keep the student in the office for the remainder of the period.

Mr. Willmarth will have a conversation with the student and

Ms. Montgomery tomorrow and together they will decide on any additional consequences.

Thank you – M. Willmarth
