

Welcome to the first night of AGGIE Math practice

Tonight you have two tasks. First, count the total number of squares in the puzzle below and be ready to share your process and answer with your group tomorrow. Use the process space at the right of the figure to capture your thoughts on how you solved the puzzle.

How many squares
altogether?

Process space

Tonight's second task is to let me know how the first day of school went and what you are looking forward to in 7th grade. You will find a link on the class website, mwillmarth.org, for this task.

(This should only take a few minutes, so if you think you are going to have trouble getting an internet connection at home you can do this part of tonight's work before you leave school.)

Thanks for a good first day, I'm looking forward to a great year!
