

Hello AGGIES – I'm at a meeting today and you have a guest teacher. Please make sure you sit in your assigned seats. Make sure you personally do everything you can to make today feel respectful and enjoyable for the guest teacher.

Below are the instructions I left for the guest teacher:

Students need to begin class by reading the note I left on the class website and writing down the homework in their Binder Reminder.

Today students will be watching an instructional video on ***Solving Two-Step Equations***, and then complete some practice problems. Any unfinished problems in the packet become tonight's home practice.

1. In the student note is a layout of today's lesson.
2. Students should have chromebooks, or their own laptops, and earbuds/headphones.
 - a. If students did not bring headphones they can use the closed caption feature as they watch the video.
3. There are several chromebooks in the drawer of the TA desk in case a student comes to class without a charged chromebook. If you loan one of them out, please write the student's name on this lesson plan.
4. The link to today's lesson video is in the ***Today's class activities*** section of the daily agenda on the website.
5. Please wait until students are part way through the video before passing out the **Solving 2-Step Equations** practice problems. Remind students to put their name, date, and period information on the packet.
6. If students finish the practice problems before the end of the period, they can read or work on assignments for another class.
