

## Find the Volume and Surface Area

### VOLUME

$$5(6) = 30$$

$$30(10) = \underline{300 \text{ in}^3}$$

$$10(5) = 50$$

$$50(6) = \underline{300 \text{ in}^3}$$

$$10(6) = 60$$

$$60(5) = \underline{300 \text{ in}^3}$$

### SURFACE AREA

$$5(10) = 50 \quad \text{FRONT}$$

$$6(10) = 60 \quad \text{SIDE}$$

$$5(6) = \underline{30} \quad \text{BOTTOM}$$

$$140$$

$$140(2) = 280 \text{ in}^2$$

#### FRONT + BACK

$$5(10) = 50 \quad 50 \times 2 = 100$$

#### TWO SIDES

$$6(10) = 60 \quad 60 \times 2 = 120$$

#### TOP + BOTTOM

$$5(6) = 30 \quad 30 \times 2 = \underline{60}$$
$$280 \text{ in}^2$$
