

Name _____ Date _____ Per. _____

Count the Squares

Tonight you have two tasks. First, count the squares in the puzzle below and be ready to share your process and answer with your work partner tomorrow. Use the thinking process space at the right of the figure to capture your thoughts on how you solved the puzzle.

How many squares altogether?

Thinking process space

Tonight's second task is to take a look at the supply list I passed out today and start to put together the supplies you will need for class.

Also, if you didn't fill out the first day's **My Math Goal This Year** yet please finish filling it out so you are ready to turn it in tomorrow.
